## ANATOMICAL EXAMINATIONS.

ANATOMICAL EXAMINATIONS; a complete Series of ANATOMICAL QUESTIONS, WITH ANSWERS. The Answers arranged so as to form an Elementary System of Anatomy, and intended as preparatory to Examinations at Surgeons' Hall. To which are annexed TABLES OF THE BONES, MUSCLES, AND ARTERIES. Second Edition, Corrected and Improved, 2 vols. small 8vo. 12s. boards.

### REVIEWS OF THE FORMER EDITION.

"A neat little Compendium, which will be beneficial to those for whose use it is intended."—*Monthly Review*, May, 1811.

"These Examinations form a most useful Vade-Mecum for the Medical Student; whom it cannot fail materially to assist in the pursuit of his studies.

"The conception of this plan of Elementary Instruction is ingenious, and the Author is entitled to great credit for the correctness which is visible in its execution."—*Anti Jacobin Review*, February, 1807.

"It is rather extraordinary that a book containing so much Anatomical knowledge should appear without an Author's name. The work is a kind of Anatomical Catechism, or like the Pupil and Tutor's Guide, the first volume containing the Questions, the second the Answers to them; and the second alone may be used as an Elementary System of Anatomy. The plan is very judicious, and the quantity of matter compressed, by small and very neat printing, into the two volumes, is really extraordinary."—*British Critic*, Sept. 1808.

"This work is avowedly written with the intention of enabling the Student easily to qualify himself for passing at Surgeons' Hall, and we think that it is well calculated to answer that purpose."—*Oxford Review*, April, 1807.

## THOMSON'S EDINBURGH DISPENSATORY,

THE EDINBURGH NEW DISPENSATORY, containing the Elements of MATERIA MEDICA and PHARMACY: with accurate Translations of the London, Dublin, and Edinburgh Pharmacopœias. By JOHN THOMSON, M. D. 8vo. 12s. boards.

In this Dispensatory the Pharmaceutical Preparations and Compositions are arranged after each Substance of the Materia Medica; by means of which, Materia Medica and Pharmacy are conjoined, while the Chemistry finds its proper place in this simple arrangement. Thus every article furnishes a separate and brief treatise, the repetition of former Dispensatories is avoided, and unity preserved.

\* \* \* *It is a totally different work from Dr. Duncan's.*

## THOMAS'S PRACTICE OF PHYSIC.

THE MODERN PRACTICE OF PHYSIC: exhibiting the Characters, Causes, Symptoms, Prognostic Morbid Appearances, and improved Method of treating the Diseases of all Climates. By ROBERT THOMAS, M. D. Fourth Edition, revised and considerably enlarged, in one neat and very closely printed Volume, 8vo. 16s. in boards.

This work has been again carefully revised; and a large portion of new and important matter has been added.

"A treatise nearly universal in its object, has been particularly desirable, and Dr. Thomas having had opportunities of actually observing the diseases and practice of different countries, but especially those of hot climates, and being conversant with the writings of our best modern authors and teachers, may be considered as well qualified to undertake so important a task. We think that Dr. Thomas has acquitted himself of his undertaking in a manner highly creditable to him as a man of research, and as a Practical Physician, and that this work deserves to stand high in the catalogue of this kind of compilation."—*London Medical Review*.

"In compilations of this sort, it is sufficient that, in addition to a clear and methodical arrangement, due diligence be employed in collecting from the proper sources, and judgment in discriminating between real and pretended discoveries. In these respects, we think the author of the present work has not been deficient. It is a Compendium of the existing Doctrines and Practice of Medicine."—*Medical and Chirurgical Review*.

"This is a judicious compilation of facts, from the best writers, which may be perused with great advantage by students, because the different subjects are treated with brevity and perspicuity. The Author has chiefly followed Dr. Cullen, both in the classification of diseases, and in his text; but it is necessary to add, that Dr. Thomas does not prove a servile copyist. He has abridged with judgment, has added modern opinions and discoveries, has frequently introduced the result of his own experience, and his performance thus becomes an useful Compendium of the present State of Medical Practice."—*Monthly Review*.

"We have read this Work with great satisfaction, and think it a concise but judicious abstract of the Practice of Medicine. The Author's description of diseases is clear and characteristic; his remedies appropriate and well chosen. His description of the Yellow Fever is peculiarly accurate."—*Critical Review*.

"Books of this kind, when properly executed, containing the opinions of the best writers on the several diseases, abridged and placed together before the reader, may serve for occasional reference to refresh the memory, and save the trouble of turning over numerous volumes; they may be useful also to students, prior to their entering on a more severe course of study; or to persons whose avocations do not permit them to consult more elaborate treatises. The style of Dr. Thomas is clear and unaffected, and the arrangement of his Work sensible and convenient."—*British Critic*.

## MILNE ON LONG VOYAGES.

SOME ACCOUNT OF THE DISEASES THAT PREVAILED IN TWO VOYAGES TO THE EAST INDIES in the Carnatic East Indiaman, during the Years 1793, 1794, 1795, 1796, 1797, and 1798, together with Observations and Medical Remarks, in a Series of Letters to John Hunter, M.D. F.R.S. By JOHN MILNE, M.D., formerly Surgeon of the Carnatic, now Surgeon on the Bombay Establishment, one volume, 8vo. 7s.

## PRINGLE ON THE ARMY.

OBSERVATIONS ON DISEASES OF THE ARMY. By SIR JOHN PRINGLE, Bart. New Edition, 8vo. 12s. boards.

## COOPER'S SURGERY.

THE FIRST LINES OF THE PRACTICE OF SURGERY: designed as an INTRODUCTION for STUDENTS, and a Concise Book of Reference for PRACTITIONERS. By SAMUEL COOPER. Third Edition, thoroughly revised, carefully corrected, and considerably improved. One large Volume, 8vo. With Copper Plates. 15s. boards.

## A PRACTICAL MATERIA MEDICA.

A PRACTICAL MATERIA MEDICA, in which the various Articles are fully described, and divided into Classes and Orders, according to their Effects. Their Virtues, Doses, and the Diseases in which they are proper to be exhibited, are fully pointed out. Interspersed with some Practical Remarks, and some select Formulæ. To which is added, a General Posological Table. Intended principally for the use of Students and Junior Practitioners. One vol. 12mo. 5s. boards.

"The little volume now before us contains some very judicious observations, worthy the attention of Medical Practitioners of all ranks. We are surprised indeed that the Author should have retained the order of Alexipharmics. The good sense and medical knowledge, however, which appear in almost every page, more than compensate for this antiquated error. There is much propriety in the classification of Stimulants, which are divided into fourteen orders; and as those medicines are most generally used, such an arrangement of them must be very convenient in constant practice.—After treating of those substances usually considered as drugs, the Author of this useful volume of "Practical Materia Medica" very properly adds some very sensible observations on Aliments, and their more or less nutritious qualities. This is certainly the most valuable part of such a work.—This volume, from its merits and size, deserves a place on the desk of the young Druggist and Apothecary, as well as Physician, who will find it very convenient to consult on many occasions, particularly on what relates to the doses and effects of drugs in general."—*Anti-Jacobin Review*, May, 1809.

## HOOPER'S PHYSICIAN'S VADE-MECUM.

THE PHYSICIAN'S VADE-MECUM, containing the Symptoms, Causes, Diagnosis, Prognosis, and Treatment of Diseases. Accompanied by a Select Formulæ, and a Glossary of Terms. By ROBERT HOOPER, M. D., &c. small 8vo. 7s. boards.

## GREGORY'S CONSPECTUS.

CONSPECTUS MEDICINÆ THEORETICÆ AD USUM ACADEMICUM auctore JACOBO GREGORY, M. D. olim Med. Theoret. Nunc Med. in Acad. Edin. Prof. Editio Quarta Prioribus Auctior et Emendatior. One large volume 8vo. 16s. boards.

## CULLEN'S NOSOLOGY.

NOSOLOGY, OR A SYSTEMATIC ARRANGEMENT OF DISEASES into CLASSES, ORDERS, GENERA, and SPECIES, with accurate Definitions. Translated from the Latin of WILLIAM CULLEN, M. D. late Professor of the Practice of Physic in the University of Edinburgh. Small 8vo. 2s. boards.

## A NEW MEDICAL DICTIONARY.

AN ENCYCLOPÆDIA of SURGERY, MEDICINE, MIDWIFERY, PHYSIOLOGY, PATHOLOGY, ANATOMY, CHEMISTRY, &c. &c. To which is added a Translation of CULLEN'S NOSOLOGY. By JOHN JAMES WATT, Surgeon. Second Edition. Small 8vo. 7s. boards.

### REVIEWS OF THE FORMER EDITION.

"This is a handy little volume, and contains more useful references than most others of a much larger size."—*Medical and Physical Journal*, August, 1806.

"This compilation will be found an useful addition to the Medical Library, as an occasional book of reference. It is something more than a mere dictionary of words, and furnishes a brief, and, generally speaking, satisfactory description of the leading points in the various branches of medical science enumerated in the title-page."—*Medical and Chirurgical Review*, May, 1806.

"This work consists of a dictionary, or alphabetical arrangement of names, with definitions or explanations short for the most part, but in cases where the subject demanded it, they are extended to greater length; useful tables or systematic arrangements are given under various heads, such as *Botany*, *Materia Medica*, *Medicine*, *Muscles*, &c.—The accounts of the diseases and their remedies are concisely but neatly drawn up; and upon the whole, we may recommend this work as a useful manual for students in the various branches of knowledge enumerated in the title."—*Nicholson's General Review*, April, 1806.

## LUXMOORE ON STRICTURES.

PRACTICAL OBSERVATIONS ON STRICTURES OF THE URETHRA: with Cases illustrative of the comparative Merits of the Caustic and Common Bougie. To which is now subjoined AN APPENDIX, containing an improved Method of treating Urethral Complaints, by the employment of a new Instrument, as well as by the Catheter. With Cases. By THOMAS LUXMOORE, Surgeon. Second Edition. 8vo. 7s. boards.

N. B. The APPENDIX may be had separate, price 2s.

## LUXMOORE ON TINEA CAPITIS.

OBSERVATIONS on the NATURE AND TREATMENT OF TINEA CAPITIS, or SCALD HEAD; and on IMPAIRED VISION, arising from OPACITY OF THE CORNEA. Illustrated by Cases. By THOMAS LUXMOORE. Crown 8vo. 4s. boards.

## THE LONDON PRACTICE OF MIDWIFERY.

THE LONDON PRACTICE OF MIDWIFERY, to which is added, Instructions for the Treatment of Lying-in Women, and the Principal Diseases of Children, chiefly designed for the use of Students, and Early Practitioners. Third Edition, corrected. 12mo. 6s. boards.

## THE LONDON DISSECTOR.

THE LONDON DISSECTOR, OR SYSTEM OF DISSECTION practised in the Hospitals and Lecture Rooms of the Metropolis, explained by the Clearest Rules, for the use of Students. Comprising a Description of the Muscles, Vessels, Nerves, and Viscera of the Human Body, as they appear on Dissection, with Directions for their Demonstration. Fourth Edition. 12mo. 5s. boards.

## FRASER ON EPILEPSY.

A TREATISE ON EPILEPSY, and the Use of the Viscus Quercinus, or Mistletoe of the Oak, in the Cure of that Disease. By HENRY FRASER, M.D. &c. 8vo. 2s. 6d. sewed.

## GRAVES'S CONSPECTUS.

A CONSPECTUS OF THE LONDON, EDINBURGH, AND DUBLIN PHARMACOPŒIAS; wherein the Virtues, Uses, and Doses of the several Articles and Preparations contained in those Works are concisely stated; their Pronunciation, as to Quantity, is correctly marked; and a variety of other Particulars respecting them given; calculated more especially for the use of Junior Practitioners. By ROBERT GRAVES, M.D. F.L.S. 18mo. 4s. 6d. sewed.

## ESSAY TO MEDICAL STUDENTS.

AN ESSAY, ADDRESSED TO MEDICAL STUDENTS, on the Importance and Utility of the Profession; and on the urgent Necessity there is for them to obtain a more perfect Knowledge of its different Branches than is acquired by Pupils in general, &c. &c. By EDWARD MOORE DIGBY, M.D. Foolscap 8vo. 2s. 6d. sewed.

We sincerely wish that all Students in medical science or art would read this little Essay, replete with good sense, most salutary advice, and considerable experience in medical tuition. A strict observance of the precepts here inculcated, must infallibly produce a good member of society, a skilful practitioner, (particularly in Surgery, which appears to be the branch contemplated by the writer) and lead to well-founded fame and fortune."—*Anti-Jacobin Review*, October, 1808.

## WATT'S VIEWS OF THE NOSE, MOUTH, &c., &c.

ANATOMICO-CHIRURGICAL VIEWS OF THE NOSE, MOUTH, LARYNX, AND FAUCES; consisting of Four highly-finished Plates, the Size of Nature, and the same number of Plates of Outline. With appropriate Explanations and References. By JOHN JAMES WATT, Surgeon. Together with an Additional Anatomical Description of the Parts. By WILLIAM LAWRENCE, Demonstrator of Anatomy, at St. Bartholomew's Hospital. The Engravings executed by Hopwood, from original Drawings by Baxter. Fasciculus I. Folio. Price £2. 2s. with coloured Plates, or £1. 11s. 6d. plain.

## WATT'S VIEWS OF THE PELVIS.

ANATOMICO-CHIRURGICAL VIEWS OF THE MALE AND FEMALE PELVIS; consisting of Eight highly-finished Plates, the Size of Nature, and the same number of Outlines. With appropriate explanations and References. By JOHN JAMES WATT, Surgeon. The Engravings executed from original Drawings, by Lewis. Fasciculus II. Folio. Price £2. 12s. 6d. coloured, or £1. 11s. 6d. plain.

**A DICTIONARY OF PRACTICAL SURGERY.**

**A DICTIONARY OF PRACTICAL SURGERY:** exhibiting the present state of the Principles and Practice of Surgery, collected from the most Authentic and Original Sources of Information. Comprehending also an Account of the Instruments, Remedies, and Applications employed in Surgery, and the Etymology and Signification of the Principal Terms. The whole illustrated by numerous interesting Cases, and interspersed with a series of Critical Reflections and Original Observations. The Second Edition, with many Corrections and much important Original Matter. By SAMUEL COOPER. One very large and closely printed Volume, 8vo. price 21s. boards.

**HOOVER'S MEDICAL DICTIONARY.**

**A NEW MEDICAL DICTIONARY:** containing an Explanation of the Terms in Anatomy, Physiology, Practice of Physic, Materia Medica, Chemistry, Pharmacy, Surgery, Midwifery, and the various Branches of Natural Philosophy connected with Medicine. Selected, arranged, and compiled from the best Authors, by ROBERT HOOVER, M. D. &c. &c. A new Edition, with very considerable Corrections, Additions, and Improvements; handsomely printed in one volume, 8vo. 18s. in boards.

**BELL ON WOUNDS.**

**DISCOURSES ON THE NATURE AND CURE OF WOUNDS.** By JOHN BELL, Surgeon. The Third Edition, 8vo. revised and corrected. With Plates, 12s. boards.

**BURNS ON THE HEAD AND NECK.**

**OBSERVATIONS ON THE SURGICAL ANATOMY OF THE HEAD AND NECK.** By ALLAN BURNS. 8vo. With Ten Engravings, 12s. boards.

**BARCLAY ON THE ARTERIES.**

**A DESCRIPTION OF THE ARTERIES OF THE HUMAN BODY.** By JOHN BARCLAY, M. D. 12mo. 7s. boards.

**MONRO ON THE BONES.**

The **ANATOMY** of the **HUMAN BONES** and **NERVES**, with a Description of the Human Lacteal Sac and Duct. By ALEXANDER MONRO, M. D. Late Professor of Anatomy in the University of Edinburgh. A New Edition carefully revised, with additional Notes and Illustrations. By JEREMIAH KIRBY, M. D. 12mo. 5s. 6d. boards.

**MUNRO'S SURGERY.**

**A COMPENDIOUS SYSTEM** of the **THEORY** and **PRACTICE** of **MODERN SURGERY**, arranged in a new Nosological and Systematic Method, different from any yet attempted, in the Form of a Dialogue. By HUGH MUNRO, Surgeon. Second Edition, 8vo. 6s. boards.

## GEOGHEGAN ON RUPTURES.

A COMMENTARY on the TREATMENT of RUPTURES, particularly in a State of STRANGULATION. By EDWARD GEOGHEGAN, Member of the Royal College of Surgeons, &c. 8vo. 4s. boards.

"We consider this Commentary as a valuable addition to our information on a disease of great importance, both from its frequent occurrence, and the imminent danger which accompanies it, and we therefore strongly recommend the work to our readers."—*Medical and Physical Journal*, Dec. 1810.

## PETTIGREW'S VIEWS OF THE BRAIN.

VIEWS OF THE BASIS OF THE BRAIN AND CRANIUM, accompanied with Outlines, and a Dissertation on THE ORIGIN OF THE NERVES; interspersed with Surgical Observations. By T. J. PETTIGREW, 4to. £1. 1s. boards.

## FOOT ON URETHRA.

A CRITICAL ENQUIRY into the ANCIENT and MODERN METHOD of CURING DISEASES in the URETHRA and BLADDER. Illustrated by a great Variety of Additional Cases. By JESSE FOOT, Surgeon. Sixth Edition. 8vo. 4s.

## DANCER'S MEDICAL ASSISTANT.

THE MEDICAL ASSISTANT; or Jamaica Practice of Physic, designed principally for the use of Families and Plantations. By THOMAS DANCER, M. D. (Kingston, Jamaica,) late Physician to the Bath, and Island Botanist, Second Edition, Quarto, £1. 11s. 6d. boards.

## BURKE'S ANATOMY.

THE POPULAR COMPENDIUM OF ANATOMY; or a concise and clear Description of the HUMAN BODY; with the Physiology or Natural History of the various Actions and Functions of its different Organs and Parts. Containing also an Article on Suspended Animation, with the proper Means to be used for the Recovery of Drowned Persons. By WILLIAM BURKE, Surgeon. With Plates. 12mo. 6s. boards.

"No work has been heretofore published which could afford the general and unprofessional reader the gratification of acquiring tolerable and correct notions of the structure and functions of the various parts of the human body.—Mr. Burke has, therefore, done the public a considerable service by rendering this edifying and delightful study accessible to every reader. Though it is not calculated, we think, to assist materially the studies of the Medical Student, it may be safely recommended to the Philosopher or Amateur, as containing a very clear and concise account of the state of the Anatomy and Physiology of the present day."—*Imperial Review*, October, 1806.

## PEARS ON CONSUMPTION.

OBSERVATIONS ON THE NATURE AND TREATMENT OF CONSUMPTION; addressed to Patients and Families. By CHARLES PEARS, M. D. F. L. S. Member of several Literary Societies, Domestic and Foreign; late Lecturer on the Structure and Management of the Human Body, &c. &c. &c. 8vo. price 4s.

## NISBET'S GUIDE TO THE WATERING PLACES

A MEDICAL GUIDE FOR THE INVALID, to the Principal WATERING PLACES OF GREAT BRITAIN. Containing a View of the Medicinal Effects of Water: 1st. As applied to the Body in its Simple State. 2d. As exhibited in its Impregnated or Mineral State. 3d. As employed in this form for the Cure of particular Diseases, with their Mode of Treatment: and 4th. As assisted in its Effects by the Situation and Climate of the Watering Places resorted to. By WILLIAM NISBET, M. D. Fellow of the Royal College of Edinburgh, &c. 12mo. 5s. 6d. boards.

"This volume will be found eminently useful, as it contains not only the substance of every modern publication on mineral waters, and a particular description of the properties of those at all the fashionable watering places, but likewise very copious remarks on the diseases for which they are beneficial."

## PYE'S CHEMICAL NOMENCLATURE.

THE NEW CHEMICAL NOMENCLATURE: selected from the most distinguished Modern Writers on Chemistry, designed for the Use of Students in Pharmacy, Druggists, Apothecaries, and others: in Two Parts; the first of which exhibits the Scientific Arrangements in English and Latin; and the second contains the same in English, disposed in Alphabetical Order. In both Parts the Old Names will be found on the Right Hand Column, opposite the New. The Second Edition. By C. PYE, Chemist. 8vo. 1s. 6d.

## WILSON ON FEVER.

AN ESSAY ON THE NATURE OF FEVER, being an Attempt to ascertain the PRINCIPLES of its TREATMENT. By A. PHILLIPS WILSON, M. D. F. R. S. Edinb. Fellow of the Royal College of Physicians of Edinburgh, &c. 8vo. 5s. boards.

## A MEDICAL CATALOGUE.

A GENERAL CATALOGUE OF MEDICAL BOOKS; containing the most modern and approved Works on ANATOMY, MEDICINE, SURGERY, MIDWIFERY, MATERIA MEDICA, CHEMISTRY, VETERINARY SURGERY, &c.; also an Appendix, comprising a few Books, chiefly second-hand.
